

I STRONGLY oppose the attempt of the CBA in weakening of our Indiana's Telephone Privacy law. If i have need to make phone contact with those i have an "established business relationship" with, I will contact them...there is no need for, even those i do business with, to contact me with THEIR idea of my needs. Please consider the people rather than the CBA when considering this change to our law.

Thank You,
Terri Strode
Markleville, IN.
